

ReadingKEY Weekly Test

INTRODUCTION: The ReadingKEY Weekly Test is an excellent tool to use as a final assessment on Friday to determine student mastery of the week's reading words. The results from this test can also be used to help determine the final reading grade at the end of the marking period. The test can also be used on Wednesday morning before beginning the new Wednesday and Thursday Grade 1 reading words.

DIRECTIONS: For numbers 1-5 below, call out the words in the left box in random order. Students are to look through the five words to locate the word and then write it in the correct space in the Box 1 column. For numbers 6-10, repeat the process with the words in the right box, however, you can use the "Definition Clue" strategy for the word "cat." For more information on definition clues go to www.readingkey.com/definitionclues.

CORRECTIONS: Some of the best learning occurs when correcting mistakes so we put a correction blank space to the right of each word under the "Corrections" heading. After grading the tests, pass them back and have students write the correct word next to their mistake in the "Corrections" column.
